BREATHE NEW LIFE INTO YOUR CLASSROOMS WITH MARKS-A-LOT WHITEBOARD DRY ERASE FILM from Avery Dennison Graphics Division. Ideal for refurbishing old chalkboards and worn dry erase boards, the MARKS-A-LOT system is easy to install and even easier on your budget.

MARKS-A-LOT combines durability, versatility and ease of application. Featuring Avery Dennison's patented Easy Apply Technology,* MARKS-A-LOT can be installed quickly without messy pastes or fluids. Simply apply the adhesive-coated film to your existing surface and smooth out any trapped air with a squeegee. Reposition the film as needed for the perfect job, every time. It's that easy!

* U.S. Patent No. 6,630,049.

Use in conjunction with MARKS-A-LOT Whiteboard Dry Erase Markers and Eraser systems.

MARKS-A-LOT® WHITEBOARD DRY ERASE FILM

Featuring Avery Dennison Easy Apply Technology

MARKS-A-LOT® Whiteboard Dry Erase Film applies over most smooth surfaces. As a result, in minutes you can transform chalkboards, desktops or corkboards into a high-quality dry erase marker surface that can also be used as a projection screen. What's more, MARKS-A-LOT is ideal for use with static cling technology, offering endless opportunities for classroom decorating and enhanced teaching techniques.

A smart innovation from a name you've known and trusted for more than 40 years – Avery Dennison.

KEY FEATURES

- ▲ Quickly transforms any smooth surface into a dry erase board
- ▲ Easy to install because no separate adhesive is required
- ▲ Ideal for writing or projection
- ▲ Eliminates the hazards and mess associated with chalk dust
- ▲ Compatible with most dry erase markers

Simply Smart.

Simple to install with Avery's Easy Apply Technology.
